## OF THE

### SUPERINTENDING SCHOOL COMMITTEE.

---

Your committee would say that for the first term of the several schools he was associated with the Rev. N. D. Curtis, one who was not only well qualified to perform the various duties of the position, but whose great moral and religious worth was a guaranty of success, and whose loss was very much regretted.

Amount of money raised for school purposes, including the literary fund and savings-bank tax, \$2,983.87, and apportioned among the several districts as follows:

In submitting the annual report of the schools for the year ending March 1, 1886, your committee have thought best not to particularize either districts or teachers, for the reason that we are to have an entire new system in the management of our schools. I fear if your committee should make the attempt to speak of the several districts and teachers in detail I might withhold praise in some cases where it is in some degree deserving, while in others I might fall into the other and more common error of praising overmuch.

The schools for the past year (as a whole) have been fairly successful, and some as good as can be found in any country town in the state. I do not mean to say our scholars are as far advanced as some others, but we have teachers that are as well qualified in all that pertains to a good teacher as can be found.

Some have the happy faculty of imparting and making plain and simple their illustrations, and still lack discipline, while others have discipline and lack in illustration. What we want for teachers are those who have all of those good qualifications combined, some of which we have. And let me quote right here the remarks of some of our former superintendents, in which I fully concur. They say,—“Your committee are of the opinion that all persons proposing to teach in town should, before entering upon such duty, be required to pass a written examination, which shall fully comply with a reasonable standard. This requirement is in accordance with the spirit of our time, and if it is enforced, our teachers will, without doubt, enter upon their labors better prepared.”

Every one is adapted to some special work, but not every one finds the particular field in which he is to labor. Teachers should be judged, not so much by their great acquirements as by their ingenuity and tact in imparting to others those ideas and facts without which future progress is difficult.

Books of reference should be supplied to every school-room according to their several wants, such as maps, charts, globes, dictionaries, &c., also “Good Morals and Gentle Manners,” by Alex. M. Grow, A. M., which latter book should be read aloud daily before the whole school by the teacher. One very pleasant feature of the exercises in some of our schools is singing,

many of the scholars of which have become quite proficient. It ought to be a daily exercise in every school-room.

A uniformity of text-books is very desirable, as every one will readily see. A multiplicity of classes causes the teacher to labor incessantly without accomplishing her great object, viz., the advancement of her pupils; and scholars going from one school to another will always be in readiness to commence the exercises without the trouble of procuring new books.

In conclusion, I would say, as others have well said, there is no interest in which the citizens of the town ought to be more engaged than in the education of its youth. "There is no object on which money should be more liberally bestowed, or more judiciously expended."

LAW PASSED, JUNE SESSION, 1885, RELATIVE TO  
SCHOOLS.

---

AN ACT in amendment of chapter 86 of the General Laws relating to schools, and to establish the town system of schools.

Be it enacted by the Senate and House of Representatives, in General Court convened :

SECTION 1. The division of towns into school-districts heretofore existing is hereby abolished, and each town shall hereafter constitute a single district for school purposes : *Provided, however,* that districts organized under special acts of the legislature may retain their present organization.

SEC. 2. Each town shall forthwith take possession of all the school-houses, lands, apparatus, and other property owned and used for school purposes by the said districts hereby abolished, which said districts might lawfully sell or convey. The property so taken shall be appraised by the assessors of the town, and at the next annual assessment a tax shall be levied upon the whole town equal to the amount of the whole appraisal, and there shall be remitted to the tax-payers of each district the said appraised value of its property so taken. In the case of a union district, the fractional parts of which belong to different towns, the selectmen of such towns shall, acting together, appraise the school property of such union district, abolished under the provisions of this act, and shall make an equitable apportionment of the property and debts of such district, and find the balance equitably due from either of said towns to any of said towns, and order such balance to be paid within a time to be by them limited ; and whenever such selectmen shall fail to agree upon the apportionment of the property and debts of

such union district, they shall choose a referee, whose decision shall be final.

SEC. 3. The records of the districts hereby abolished shall be preserved by the town, and returned to the several districts whenever the town shall vote to return to the district system, under the provisions of section 8 of this act.

SEC. 4. The duties heretofore devolving upon superintending and prudential committees shall hereafter be performed by a school board of three persons in each town, to be chosen by ballot at the annual school-meeting, and to hold office for three years : *Provided, however,* that at the first election under this act one person shall be chosen for three years, one person for two years, and one person for one year, and thereafter one person shall be chosen each year ; and said board shall have power at any time to fill its own vacancies until the next annual meeting of the district.

SEC. 5. The first meeting of such district, so composed of the whole town by virtue of this act, shall be called by the selectmen of such town ; and the clerk of such town shall act as the clerk of such district until the clerk of such district is chosen and qualified.

SEC. 6. The said school board of each town shall provide schools within the limits of said town, at such places and times as in their judgment shall best subserve the interests of education, and as shall give all the scholars of the town as nearly equal advantages as may be practicable ; and said school board may use a portion of the school-money, not exceeding twenty-five per cent. thereof, for the purpose of conveying scholars to and from such schools.

SEC. 7. The provisions of this act shall not be applied to school-districts holding funds for school purposes, in such manner as to prevent said districts from retaining and enjoying the benefit of said funds.

SEC. 8. Any town, after five years from the time this act goes into effect, may, by a majority vote of all the voters of the district, reëstablish the district system in such town, and shall thereafter be subject to the same laws as are now in force in this state in relation to school-districts.

SEC. 9. The provisions of the General Laws heretofore

enacted in relation to school-districts and schools shall be in force, so far as the same are consistent with this act; and all acts and parts of acts inconsistent with the provisions of this act are hereby repealed, and this act shall take effect and be in force from and after March 1, 1886.

Approved August 13, 1885.
